

MRS. BECKER'S

KINDERGARTEN CLASSROOM

SEPTEMBER 11TH, 2020 HOLY TRINITY SCHOOL

Our first week of Kindergarten went great. All the children have done an excellent job this week of listening, participating and having fun with their new friends. We have been learning new songs, practicing writing our names, reading new stories and making new friends. We practiced making vertical, horizontal, forward and backward circles and slanted lines. We have been introduced to all the strokes we need to make all of our numbers and letters correctly. Next week we will start focusing on our letters and numbers. I and horizontal strokes to help us with our letter writing. I have attached a copy of the diagrams to make each number and letter correctly to this newsletter so if you practice with your child at home, you can use this as a guide to the correct letter/number formation. We really enjoyed learning about bus safety and making a bus. In math we are busy doing some fun activities from our math series. We are having so much fun! What a great group of kindergarteners we have this year!

What a Wonderful Group of Kindergarteners.
So happy to be back in school again!

Scholastic Book Club Orders

About four times throughout the year I will be attaching book order forms to these newsletters. Ordering books from these book orders is an excellent and relatively inexpensive way to purchase books for your child. If you would like to order books, you can either order on-line by using our classroom code which is JGNJF or return the order form by the due date to school with a check made payable to Scholastic Books.

Book orders will be due next Friday, September 18th.

SEESAW APP

Attached to this newsletter is directions on how to download the Seesaw App and sign up for the home- to-school connection. Your child will be using this application throughout the school year to complete activities in all subject areas. Many of you are probably already familiar with this application as it was used for distance learning last spring. If you have any questions, please feel free to contact me.

Homework Calendars

In kindergarten our days are filled with lots of activities and we are so busy all day long learning math, reading and writing. I do not typically give "homework" but I do send out a homework calendar every month for families that would like to extend what we learn at school to their homes. On this calendar there are many activities and some of the activities that are on the calendar may be a bit more challenging than others. These activities provide skills that you can do with your child and are meant to be fun. The homework calendars are optional but I encourage you to try some of these activities with your child. At the end of the month, you can have your child return their completed homework calendars for a little treat. The September Homework Calendar is attached to this newsletter.
